

REMARKS:

The title and opening sentence of the application have been amended so they define structure that is found in applicant's independent claim. In addition, headings and a cross reference to the corresponding foreign filed applications have been added, as required by U. S. practice. The abstract has been revised so it is in conformance with U. S. practice. Claims 1-20 have been cancelled and replaced by new claims 21-40. The new claims remove from claims 1-20, as originally prepared, means-plus-function limitations, characterizing clauses, multiple dependent claims, reference numerals and other undesirable features. The changes to the specification and claims do not introduce new matter. Entry of the amendment is in order.

Respectfully submitted,
